

INSTANT BUSINESS RECOVERY

Recovery is just one click away

When your systems are down, your business is down. With Instant Business Recovery, one click is all you need to instantly bring your business back online. From server failure to a full-site disaster, simply log in, click “Recover,” and in as little as one minute your applications and data are restored.

Make recovery easy

Because we know resources are tight, we designed IBR so you don't have to invest in hardware, software or outside IT assistance to recover. Plus, we make testing your disaster recovery solution easy. Every test is completely automated and runs in the background, so you and your IT staff can concentrate on what matters most to your business. And whether you report to management or auditors, our web-based reporting quickly and clearly provides you with the information you need, anytime you need it.

So, go ahead, relax, and never worry about data recovery again. IBR is here to make your life easier.

Instant recovery

If you have a server failure, full-building disaster or any other interruption, log in from any web browser and recover your applications instantly. Get your business back online before anyone but you knows you were down.

A one-of-a-kind solution

We're the only company in the U.S. to offer 60-second, one-click recovery via a unique Recovery Management Portal

Transparent transition

Any disaster is stressful. Reduce the confusion with quick and seamless transitions to your backup servers. Users can keep working as if nothing happened, and you can get back to business as usual.

Effortless testing

Testing doesn't have to be a dirty word. IBR includes free automated, non-disruptive recovery testing. Routine analysis ensures your ability to recover quickly with no impact on day-to-day operations and zero additional staffing.

Immediate notification

Get 24/7 updates via email or text message so you know right away if a server is in trouble.

A DECADE OF DEDICATION

We dedicate ourselves to one thing: Making sure our members recover when they have a disaster. We are passionate about recovery, and it's all we do.
