

## WORKGROUP RECOVERY

# Pull up a chair and get on with your business

When your office is inaccessible, your business doesn't have to be. Our flexible Workgroup Recovery options offer everything you need, where you need it. Your key employees can be up and running in no time at a fully equipped real estate or mobile recovery space, anywhere in North America.

### Disasters don't have to be catastrophes

What happens when a smaller disaster strikes? Say your building loses power courtesy of a storm or an accident? What if you lose your phones or Internet connection—and your provider doesn't have any idea when you'll get back online? Call us and we'll take care of you. From generators to satellite dishes to seats, we'll cover all the bases including delivery and installation.

With our low monthly rates and flexible options, we're confident we can save you money over your current recovery solution. Talk to us and we'll make sure you can always get on with your day.

## EVERYTHING YOU NEED

### Technology

- Computer workstations
- High-speed fiber-optic broadband internet access
- Printers & fax machines
- Call center capabilities
- 24/7 access to voice mail

### Power
