

eMONIFY™

Emergency Alert and Mass Notification System

e-mon-i-fy [e-mon-uh-fahy]
 -verb (used with object), -fied, -fy-ing.

1. to inform or give notice en masse
2. to notify the public of an emergency

Overview and Benefits

Continuity Centers eMONIFY™ voice notification system provides rapid and automated delivery of emergency alerts, critical information and announcements, as well as a full voice mail recovery solution.

eMONIFY™ includes powerful features to enhance vital voice communication and in times of crisis. eMONIFY™ provides these features to address the unique needs of private and public businesses, schools, government, public safety, health care, community and volunteer organizations, to name a few.

Rapid Reliable Delivery of Voice and Email Messages

eMONIFY™ notification service provides rapid delivery of informative voice messages to cell phones, work phones, home phones, answering machines, voicemail, and email. Record your emergency alert message and launch your campaign by phone any time of the day or night. Call recipients can listen to and interact with your message or alert. Configurable round robin redials calls that were not answered free of charge.

Voicemail Recovery Solution

Should your phone system or phone lines become inoperable, simply forward your phone numbers to our Voicemail Recovery System. Incoming calls are answered with a customized greeting you create and calls are instantly routed to an unlimited number of extensions or phone numbers of your choice, allowing us to mirror your corporate extensions and DIDs. Voicemails are immediately delivered to your staff via email as a standard .WAV attachment or can be easily retrieved from any phone.

Powerful Call List Management and Group Membership

eMONIFY™ can use your existing call lists from the applications you're most familiar with such as Microsoft Excel, as well as industry standard formats such as ASCII comma delimited.

You can also view, edit, search, add or remove contacts from your call lists with our list management tools. A benefit of eMONIFY's™ powerful call list management is the ability to deliver individual voice messages to multiple recipients or specific groups of any size with ease.

Security and Compliance with Regulatory Authorities

With eMONIFY™ Software as a Service (SaaS) you can rest assured your information is secure. All customer data is securely transmitted using Secure Sockets Layer (SSL) to our secure data centers and automatic emails are generated for all account activity.

Scalable, Affordable Monthly Plans

eMONIFY's™ scalable pricing model allows you to pick the plan that meets your specific needs, regardless of the size of your organization. Pay only for successfully delivered calls and never pay for busy signals, transfers or non-answered calls.

Telephone and Email Support

Assistance and technical support available by email and phone to help you quickly and easily take full advantage of the system.
